Good Practice of Gov't

Ministry of Education promote to conduct

- 1.research the situation of Foreign children's education
- 2.support Teaching subjects and
- 3.Japanese conversation.

But there is **no MIGRANT EDUCATION** in education curriculum. It is a challenging issue.

2. Self Help Group by youth who have multi-cultural background “ Stand by me”

- Background of Self Help Group “Stand by me”
- Starting from Learning support class by Japanese
- Separating activities from Learning support class
- Organize the events by Youth themselves
- Searching and discussing their identities (including migrant history)
- Junior high school teachers support “stand by me” and integrate their activities as “International studies” course.

A Cambodian boy Saran's case of "Stand by me"

- A Cambodian boy Saran (Junior high school student) asked the parents history when they became refugee and migrated to Japan.
- Saran's Father was upset and didn't tell anything.
- Saran has good relationship between Junior High School teachers but other migrant classmates and neighbors who had dropped out.
- Saran felt Japanese(Host society people, even teachers) are not able to understand his complex feeling.
- Saran organized a small group in "Stand by me" and his friend also organized small groups under "Stand by me" .
- Saran decided to stay 1 year in Cambodia to seek his identity.
- After graduated university, Saran have soft relationship with group.

Challenging to bridging the gap between Host society and migrant youth ("stand by me"'s case)

We need to recognized ethnic society also respect each other in individual level

Conclusion

Migrant Education in Japan

1. Historically, there are many children rooted in foreign countries in Japan. Their life had been influenced on state's policy and international political situation.
2. But there are lack of migrant historical education why many children rooted in foreign countries in Japan.
3. According to research of Ministry of Education, more than 20 % of migrant children failed to go to school or missing.
4. Some Japanese individual, group, NGOs support migrant children' education, life skills etc.
5. Self Help Group by migrant youth should have many possibilities. But individual youth feel the gap between Japanese in Host country and migrant youth.

Recommendation

1. Promote Migrant's historical education
 1. In schools
 2. In public (ex. publish booklets)
2. Respect their autonomy
 1. First generation
 2. Second and Third Generation
 3. Forth generation = current school students
3. Promote social inclusion , avoid social exclusion
 1. Social inclusion : Education, Social relationship, Career development
 2. Avoid social exclusion: Stop HATE SPEECH toward migrant.
